EDUCATION

Cleveland State University
BS Computer Science *GPA: 3.1*

Cleveland, OH
Aug 2020 - May 2024

EXPERIENCE

Best Buy
Sales Representative

Strongsville, OH
August 2022 - Present

- Developed strong customer communication and problem-solving skills through direct sales interactions, effectively identifying customer needs and providing tech solutions that align with their expectations.
- Enhanced teamwork and collaboration abilities by working closely with colleagues to meet sales targets and contribute to a high-performing team, demonstrating adaptability and a commitment to achieving business objectives.

Nynth Labs LLC
Lead Developer / Product Manager

Cleveland, OH
December 2022 - October 2023

- Led the redevelopment and modernization of client websites using React and JavaScript, significantly enhancing user experience and interface functionality, which resulted in increased client satisfaction.
- Collaborated directly with clients to ascertain their design specifications, delivering tailored web solutions that aligned seamlessly with strategic business objectives, thereby enhancing client engagement and feedback mechanisms.
- Managed comprehensive project lifecycles independently, from initial concept to deployment, ensuring adherence to timelines and maintaining rigorous standards of quality and performance in all deliverables.

Greater Cleveland Partnership
Web Developer Intern

Cleveland, OH
August 2023 - May 2024

- Played a significant role in enhancing a sophisticated job-search tool during my internship at the Greater Cleveland Partnership (GCP), aimed at supporting high school and college students' career aspirations.
- Led the integration of additional search parameters into the tool's framework, enabling students to meticulously refine job searches based on their skills, preferences, and ambitions, utilizing HTML, JavaScript, and AJAX.
- Contributed to expanding the tool's geographical coverage beyond Northeast Ohio, providing students with a broader range of employment prospects across diverse locations.

RELEVANT SKILLS

Backend Development: C, Node.js, Java, Python, Golang
Frameworks: React, React Native, CSS, HTML, Electron.js
Tools: Git, Visual Studio Code, Bash, Bitbucket

PROJECTS

Capstone Project *Bitbucket, Javascript, Ajax* <https://bitbucket.org/devsinsivia/exploreit/src/master/>
The Greater Cleveland Partnership (GCP) assists high school and college students in career preparation. They needed a job-search tool to guide their students effectively. Previous versions of the app were limited to Northeast Ohio. The primary objective was to enhance the search functionality by expanding to additional locations and incorporating more detailed search parameters.

Personal Website *CSS, JSS, Github, Json* <https://personal-website-rosy-ten.vercel.app/#projects>
My personal portfolio website serves as a comprehensive project showcasing information about me and my ongoing and completed projects. It features details about my education, highlighting the schools I attended, as well as my proficiency in various programming languages. Through this platform, I aim to provide visitors with insights into my background, skills, and the projects I'm involved in, creating a centralized hub for my professional endeavors.
